

# Cassidy Diamond

[dialmond@protonmail.com](mailto:diamond@protonmail.com) | [cassidydiamond.me](http://cassidydiamond.me)

## Education

May 2025

**Carnegie Mellon University**, Pittsburgh, PA

GPA: 3.55/4.0

*B.S in Computer Science; B.S in Mathematics (Discrete Math and Logic); University and College Honors*

**Relevant Coursework:** Introduction to Cryptography (15356), Constructive Logic (15317), Natural Language Processing (11411), Fundamentals of Programming Languages (15312), Parallel Computer Architecture and Programming (15418), Algebraic Structures (21373), Algorithms (15451), Linear Algebra (21341)

## Work Experience

**Software Engineer - Diderot**

May 2023 - Aug 2024

- Received \$550,000 in funding from NSF with Prof. Umut Acar, chosen as project Entrepreneurial Lead
- Created a virtual AI teaching assistant for university courses using generative large language models (**OpenAI, Django, Daphne, RESTful API design, AWS, PyTorch, NumPy, SciPy, nltk**)
- Built a frontend application for course management and chat messaging, available as a full website and as a widget (**TypeScript/React.js, AJAX, Websockets, Node.js, HTML/CSS, Bootstrap**)
- Designed and managed enterprise-grade cloud infrastructure for web servers, API endpoints, load balancers, used by hundreds of students, thousands of daily API hits (**AWS, Sentry, Postgres, Docker**)
- Developed system to automatically gauge effectiveness of LLM responses using **nltk** and NLP methods
- Collaborated with AWS engineers, Duolingo, and Kleiner Perkins as part of startup development

**Chief Engineer - WRCT Radio Station**

May 2022 - May 2025

- Containerized and upgraded legacy programs with **Docker**, networked under an **Nginx** reverse proxy; migrated services to **Linux** cloud server
- Created **Bash, cron, and Python** scripts to automate radio tasks
- Integrated industry standard music charting software into **PHP/WordPress** website following redesign
- Documented projects for future engineers, led engineering team, collaborated with community members
- Presented radio station infrastructure to engineers at Google Pittsburgh

**Full Stack Developer - Pin Up Posters Courier Collective**

October 2021 - November 2022

- Created and maintained web application to replace Google Suite with **Django, Mapbox GL JS**
- Collaborated with nonprofits and local businesses to advertise their events on online platform

## Skills

**Languages and Technologies:** Python, C, C++, PHP, Java, JavaScript / TypeScript / Node.js, Django, Django Rest Framework, Flask, Linux, Bash, Git, GitHub Actions, CI/CD, Vim, Ham Radio (KJ7ORR)

**ML Libraries:** PyTorch, TensorFlow, NumPy, SciPy, nltk, OpenAI / genAI tools, HuggingFace

**Frontend:** HTML, CSS, React, TypeScript, Web Application Development, AJAX, WebSockets, SEO

**Systems Administration/DevOps:** AWS (EC2, RDS, S3, Elastic Beanstalk, ElastiCache), Docker, Kubernetes, Nginx, Redis, PostgreSQL, SQL, SMTP servers, DNS routing, Sentry, Prometheus, Cloudflare

## Projects

**WRCT Radio Music Database** | *Django, PostgreSQL, HTML/CSS, Docker, Perl*

[db.wrct.org](http://db.wrct.org)

- Rebuilt 20+-year-old Perl music database from scratch, cataloging 100,000+ songs, artists, labels, and giving DJ's tools to collaboratively review new music. Closely integrated community feedback in design.

**C++ Parallel Raytracer** | *C++, CUDA, OpenMP, MPI*

[cassidydiamond.me/15418-project/](http://cassidydiamond.me/15418-project/)

- Designed, built, and parallelized a C++ Monte Carlo Raytracer. Utilized and analyzed multiple parallelization techniques, including CUDA, OpenMP, and MPI. Presented results in report format.

**Love Languages** | *Python, Algorithm Design*

[cassidydiamond.me/love-languages/](http://cassidydiamond.me/love-languages/)

- Created an esoteric programming language centered around algorithm design, then wrote a paper on it. Winner of the 2025 Frank-Ratchye Studio for Creative Inquiry [F.U.C.K.E.R.Y Award](#)
